

MASTER OF SCIENCE IN INFORMATION TECHNOLOGY

The  icon appears in the title of traditional courses that are also available as a set of module courses.

Description and Outcomes

If you have a bachelor's degree in information technology, computer science, information systems, management of information systems, or a similar field of study, the Master of Science in Information Technology could help you take the next step in your career.

This program is available in ExcelTrack. Speak with your University representative for any limitations. For more information on ExcelTrack, see Learning Paths in the Approach to Learning (<https://catalog.purdueglobal.edu/policy-information/university-information/approach-to-learning/>) section of the Catalog.

Concentrations

The program provides you with the option of selecting a concentration, in addition to the core curriculum requirements. The concentrations include Amazon Web Services (AWS) cloud technologies, business intelligence, cybersecurity, data analytics, project management, and secure software development and quality assurance.

Program Length

The Master of Science in Information Technology program consists of a minimum of 60 quarter credit hours. Upon successful completion of the program, you will be awarded a master of science degree.

Program Outcomes

1. Decision Analysis and Project Leadership: Analyze information technology opportunities to determine the necessary scope, schedule, resources, and stakeholders to produce the optimal solution.
2. Design Secure Systems: Develop efficient and effective systems solutions to safely secure digital assets and intellectual property.
3. Critical and Analytical Thinking: Apply best practices and recent theories to support implementation, modification, and review.
4. Ethical Theories and Practices: Evaluate information systems' legal, ethical, social, and global implications to justify decisions and optimize social outcomes.

Professional Competencies

In addition to the discipline-specific outcomes, professional competencies are integrated throughout your academic program. You can review the professional competencies associated with your academic program in the Professional Competencies (<https://catalog.purdueglobal.edu/graduate/professional-competencies/>) section of this Catalog.

Program Availability

For program availability, please refer to the U.S. State and Other Approvals (<https://catalog.purdueglobal.edu/policy-information/university-information/accreditation-approvals-memberships/>) section and Program Availability Information (<https://www.purdueglobal.edu/catalog-program-availability-info.pdf>).

Policies

Accelerated Master of Science in Information Technology Option

If you are a graduate of the University's Bachelor of Science in Analytics, Bachelor of Science in Cloud Computing and Solutions, Bachelor of Science in Cybersecurity, or Bachelor of Science in Information Technology, are granted admission to the Master of Science in Information Technology, and meet the requirements for the accelerated Master of Science in Information Technology option, you may have up to three courses waived to matriculate into a shortened program.

In order to qualify for the graduate course waivers, you must meet the following criteria:

1. Complete your bachelor's degree with a minimum cumulative GPA of 3.2.
2. Obtain a grade of "B" or above in each of the undergraduate courses required for the graduate course waiver (defined below).

Waived Graduate Course	Undergraduate Courses Required for Graduate Course Waiver
IT510	IT460
IT511	IT301 and IT401
IT526	IT234 and IT350
IT530	IT278, IT375, and either IT283 or IN203
IT542	IT262 and IT395
IT550	IT316 and IT411

Progression Requirements

1. You are required to take and pass IT513  Research and Writing for the IT Professional as your first course.
2. If, for any reason, you are required to complete additional capstone hours during your program, you may complete them during the normal course of study or you may contact your Student Advisor to secure an extension. IT596 IT Graduate Capstone Extension Course is taken after IT599 Master's Capstone in Information Technology and is for the specific purpose of providing a means for capstone project or thesis completion. Approval of the Dean or the Department Chair is required for enrollment in IT596 IT Graduate Capstone Extension Course. If an extension is granted, the University will not charge tuition for the extension course; however, you will be required to pay the normal resource fee.

Certification, State Board, and National Board Exams

Certain state certification and licensure boards have specific educational requirements for programs to lead to a license or nongovernmental certification that is a precondition for employment in a recognized occupation.

Unless otherwise specified, Purdue Global's programs are not designed to meet any specific state's licensure or certification requirements. If certain licensed occupations, vocations, or professions are not explicitly listed, Purdue Global has not reviewed the licensure or certification requirements of those occupations, vocations, or professions, nor intended the program to meet such requirements. Licensure-track programs may limit enrollment to students in certain states; please see Purdue Global's Program Availability Information (<https://www.purdueglobal.edu/catalog-program-availability-info.pdf>).

www.purdueglobal.edu/catalog-program-availability-info.pdf) to determine enrollment eligibility.

You are responsible for understanding the requirements of optional certification exams. Such requirements may change during the course of your program. You are not automatically certified in any way upon program completion. Although certain programs are designed to prepare you to take various optional certification exams, Purdue Global cannot guarantee you will be eligible to take these exams or become certified. Your eligibility may depend on your work experience, completion of education and/or degree requirements, not having a criminal record, meeting other certification requirements, or the program or the University itself having appropriate accreditation or licensure.

Degree Plan

The  icon appears in the title of traditional courses that are also available as a set of module courses. Module course availability may be limited to certain academic calendars. See Course

Types (<https://catalog.purdueglobal.edu/policy-information/university-information/approach-to-learning/>) for information about module courses.

Program Requirements

Code	Title	Credits
Core Requirements		
IT504	 Managing Information Technology in a Business Environment	4
IT510	 Systems Analysis and Design	4
IT511	 Information Systems Project Management	4
IT513	 Research and Writing for the IT Professional	4
IT525	 Database Design and Data Modeling	4
IT526	 SQL Query Design	4
or IN501	Fundamentals of Computer Programming	
IT530	 Computer Networks	4
IT540	 Management of Information Security	4
IT590	 Legal and Ethical Issues in IT	4
Select one of the following:		4
IT597 & IT598	Master's-Level Information Technology Internship I and Master's-Level Information Technology Internship II	
IT599	Master's Capstone in Information Technology	
Total Core Requirements		40
Open Elective Requirements		
IT Electives (see below)		20
Total Open Elective Requirements		20
TOTAL CREDITS		60

Concentration Requirements

Concentration courses are completed within the open electives requirement of the degree plan.

Students in this program are not required to select a concentration.

Amazon Web Services (AWS) Cloud Technologies

Code	Title	Credits
IN515	AWS Academy Cloud Foundations	4
IN516	AWS Academy Cloud Architecting	4
IN517	AWS Academy Cloud Developing	4
IN518	AWS Academy Data Analytics Lab	4
IN519	AWS Academy Cloud Operations	4
TOTAL CREDITS		20

Business Intelligence

Code	Title	Credits
IT521	 Decision Support Systems	4
IT522	 Knowledge-Based Management Systems	4
IT523	 Data Warehousing Design and Development	4
IT Electives		8
TOTAL CREDITS		20

Cybersecurity

Code	Title	Credits
IT537	 Introduction to Cybersecurity	4
IT542	 Ethical Hacking and Network Defense	4
IT543	 Cryptography Concepts and Techniques	4
IT550	 Computer Forensics and Investigations	4
IT591	IT Security Auditing and Assessments	4
TOTAL CREDITS		20

Data Analytics

Code	Title	Credits
IN500	Survey of Modern Data Analytics	4
IN501	Fundamentals of Computer Programming	4
IN502	Python and R and Statistics Tools	4
IT527	 Foundations in Data Analytics	4
IN555	Statistics for Analytics	4
TOTAL CREDITS		20

Project Management

Code	Title	Credits
GM591	Strategic Project Selection and Initiation	4
GM592	Project Planning and the Project Plan	4
GM593	Project Execution With Monitoring and Control	4
GM594	Project Closing, Ethics, and Professional Responsibilities	4
IT Elective		4
TOTAL CREDITS		20

Secure Software Development and Quality Assurance

Code	Title	Credits
IN510	Secure Software Design	4
IN511	Secure Coding	4
IN512	Advanced Secure Coding	4

IN513	System and Security Testing	4
IN514	Secure Development and Operations - SecDevOps	4
