HA545: Health Policy
This course provides students with an in-depth analysis of health care policy development in the United States of America. Students focus on health care policy formation and evaluation by investigating public policy and politics. Students consider a variety of elements that factor into health policy development such as economics, political science, management, communications, and public health.
Quarter Credit Hours: 4 | Prerequisite: None

HA550: Health Care Law and Ethics
This course offers an overview of the laws, ethical standards, and current legal issues relevant to health care in the U.S. You are introduced to various common ethical dilemmas and their potential implications to patients and providers. You will analyze various moral, ethical, and legal constructs influencing today’s health care environment. Course activities encompass a variety of current topics providing an overview of how ethics and health care law impact decision-making in health care.
Quarter Credit Hours: 4 | Prerequisite: None

HA560: Community Health Assessment
This course provides you with the skills needed to enhance (assess) the health of a community. You will focus on health behaviors, environmental influences, health policy, and economic and health care system issues in health promotion and disease prevention.
Quarter Credit Hours: 4 | Prerequisite: None

HA565: Health Information Management and Assessment
This course provides a comprehensive examination of the principles and practices of the management of health information. The course covers three principal areas of health information management: Health Information Portability and Accountability Act (HIPAA), electronic health information management (e-HIM), and informatics.
Quarter Credit Hours: 4 | Prerequisite: None

HA575: Health Care Marketing
This course provides an analysis and evaluation of the principles and concepts of marketing as they apply to health care organizations. The course covers essential elements of marketing as well as direct applications of marketing tools and strategies in the dynamic health care environment.
Quarter Credit Hours: 4 | Prerequisite: None

HA599: Master's Capstone in Health Care Administration
The capstone course is the culminating experience for the Master of Health Care Administration. This course builds on the concepts of all the courses students have taken within the program of study. The capstone course provides students with the opportunity to integrate and synthesize the knowledge and skills acquired through their coursework in an original comprehensive project, and to assess their level of mastery of the stated outcomes of their degree program in health care administration.
Quarter Credit Hours: 4 | Prerequisite: Last term
