DOCTOR OF NURSING PRACTICE

Description and Outcomes
The Doctor of Nursing Practice (DNP) is a practice-focused terminal nursing degree and is an alternative to research-focused doctoral programs. DNP graduates are prepared to take leadership roles in a variety of settings with a focus on improving health care systems and patient outcomes. In our rapidly evolving and complex health care environment, the demand for nurses with DNP preparation has never been greater.

Our Program
We accept applicants with a CCNE-, ACEN-, or CNEA-accredited Master of Science in Nursing with an advanced nursing practice specialty as defined by the American Association of Colleges of Nursing. Direct care advanced practice registered nurse (APRN) specialties are nurse practitioner, clinical nurse specialist, nurse anesthetist, and nurse midwife. Indirect care advanced practice specialties are roles such as nursing administration, informatics, health policy, and population health. Applicants with other Master of Science in Nursing degrees are reviewed on a case-by-case basis.

Purdue Global is deeply committed to supporting our students and recognizes that nurses are exceptionally busy with multiple demands. The DNP program at Purdue Global is delivered online and you complete practice experiences and a DNP project at a health care setting of your choice. You will have a DNP Faculty Mentor who provides guidance, mentorship, and support throughout the program and during the DNP practice experience and project.

Our DNP program is based on the AACN’s Essentials of Doctoral Education for Advanced Nursing Practice (2004). It is designed to prepare nurses to practice at the highest level of nursing, analyze data and scientific research to improve nursing practice, provide organizational and system leadership to continuously improve quality of health care and foster interprofessional collaboration, and evaluate ethical, legal, and social factors in shaping and developing health policies.

Refer to the Certification, State Board, and National Board Exams (p. 3) section for important program disclosure information.

Note: the Doctor of Nursing Practice program is not available in all states. Refer to Program Availability Information (https://www.purdueglobal.edu/catalog-program-availability-info.pdf) for details.

Practice Experiences
The practice experience will occur in a facility site you select in consultation with your DNP Faculty Mentor. One thousand (1,000) postbaccalaureate practice hours are required for DNP degree completion.

Degree Plans
If you successfully completed the Master of Science in Nursing—DNP Path at Purdue Global, you will complete the standard DNP degree plan. You may also be eligible for this degree plan if you previously completed a CCNE-, ACEN-, or CNEA-accredited Master of Science in Nursing at another institution. The standard degree plan consists of a minimum of 48 quarter credit hours, depending on your prior degree.

Effective May 18, 2016, the Post-Master of Science in Nursing degree plans are not available. You may pursue a post-master’s certificate before applying to the Doctor of Nursing Practice standard degree plan. Please see requirements for the Executive Leader Graduate Certificate, Nurse Educator Graduate Certificate, Adult-Gerontology Primary Care Nurse Practitioner Certificate, or Family Nurse Practitioner, Primary Care Certificate.

Program Length
The Doctor of Nursing Practice program consists of a minimum of 48 quarter credit hours, depending on your prior degree. Upon successful completion of the program, you will be awarded a doctorate degree.

Program Outcomes
Upon graduation, Purdue Global DNP-prepared nurses will be prepared to:

1. Scientific Underpinnings for Practice: Integrate nursing science with other disciplines and use science-based theories and concepts to develop and evaluate new practice approaches to improve health care delivery.
2. Organizational and Systems Leadership for Quality Improvement and Systems Thinking: Develop and evaluate health care delivery approaches to meet current and future health needs, ensure accountability and patient safety, and evaluate effective strategies for managing ethical dilemmas.
3. Clinical Scholarship and Analytical Methods for Evidence-Based Practice: Utilize analytical methods to critically appraise existing literature, design and implement studies, apply relevant findings to practice, use technology to improve research methods, and disseminate findings from evidence-based practice and research to improve health care outcomes.
4. Information Systems/Technology and Patient Care Technology for the Improvement and Transformation of Health Care: Leverage information technology to evaluate programs and improve outcomes of care.
5. Health Care Policy for Advocacy in Health Care: Model leadership in the critical evaluation of health care policy, development of policy at all levels, and advocacy for justice and ethics in all health care arenas.
6. Interprofessional Collaboration for Improving Patient and Population Health Outcomes: Apply the methods of effective team leadership, be prepared to play a central role in establishing interprofessional teams, participate in the work of the team, and assume team leadership when appropriate.
7. Clinical Prevention and Population Health for Improving the Nation’s Health: Engage in leadership to integrate and institutionalize evidence-based clinical prevention and population health services for individuals, aggregates, and populations.
8. Advanced Nursing Practice: Demonstrate refined levels of clinical judgment, systems thinking, and accountability in designing, delivering, and evaluating health care.

Professional Competencies
In addition to the discipline-specific outcomes, professional competencies are integrated throughout your academic program. You can review the professional competencies associated with your academic program in the graduate School of General Education (https://
nursing degree you have attained, to apply you must:

Requirements for Graduates of a Master's Degree Program

Path for additional information.

in Nursing—DNP Path program and earn a master's degree before
continuing on to the Doctor of Nursing Practice program. Refer to the
Admissions Requirements for the Master of Science in Nursing—DNP
Path program and additional information.

Requirements for Graduates of a Bachelor's Degree Program

If a bachelor's degree with an upper-level major in nursing is the highest
nursing degree you have attained, you will enroll in the Master of Science
in Nursing—DNP Path program and earn a master's degree before
continuing on to the Doctor of Nursing Practice program. Refer to the
Admissions Requirements for the Master of Science in Nursing—DNP
Path program and additional information.

Requirements for Graduates of a Master's Degree Program

If a master's degree with an upper-level major in nursing is the highest
nursing degree you have attained, to apply you must:

1. Complete an informational interview with an Admissions Advisor.
2. Successfully complete an interview with School of Nursing faculty.
3. Submit transcripts indicating the total number of student clinical
   or practicum hours completed or a letter from the prior institution
   verifying the total number of hours completed. A maximum of
   500 supervised clinical or practicum hours may be accepted from
   your prior education. If you graduated from an advanced practice
   registered nurse (APRN) program, earned certification in an advanced
   practice role, and are currently practicing as an APRN, you must
   submit proof of certification and/or advanced practice licensure prior
to your interview with faculty.
4. Submit the following documents at least 4 weeks prior to the desired
   start date:
   a. An unofficial transcript indicating completion of a master’s
degree with an upper-level major in nursing and a cumulative
   GPA of 3.0 or higher from a program accredited by CCNE, ACEN,
   or CNEA. If accepted to the program, you must provide the
University with an official copy of the transcript prior to the end
of the first term. Refer to the First-Term Responsibilities for additional
information.
   b. An unofficial transcript indicating completion of a graduate-level
   statistics course and a nursing research course with a grade of
   “B” or better. If you have not completed these courses as part
   of your master’s degree in nursing, if admitted to the program,
you may take MN 504: Scientific and Analytic Approaches to
   Advanced Evidence-Based Practice in the first term.
   c. A current, professional resume or curriculum vitae (CV) that
   verifies you have worked a minimum of 1,000 clinical hours as a
   registered nurse.
   d. Two letters of reference from professional and/or academic
   contacts indicating academic ability, personal character, and
   professional competency.
   e. A personal statement of no more than 500 words

Program Availability

For program availability, please refer to the U.S. State and Other
Approvals section of this Catalog.

Admissions Requirements

You must meet the below admissions requirements in addition to Purdue
Global’s general requirements.

If you are an international applicant, you are not eligible to enroll in this
program due to practice experience requirements.

Upon acceptance to the Doctor of Nursing Practice program, you will be
placed in a degree plan relevant to your prior learning.

If you previously withdrew or were dismissed from the Doctor of Nursing
Practice program, you must wait a minimum of 6 months from the
official date of withdrawal to reapply for admission. Contact the Office
of Returning Students for more information. Acceptance of returning
students is at the discretion of the School of Nursing.

If you previously withdrew or were dismissed from the Doctor of Nursing
Practice program, you must wait a minimum of 6 months from the
official date of withdrawal to reapply for admission. Contact the Office
of Returning Students for more information. Acceptance of returning
students is at the discretion of the School of Nursing.

students is at the discretion of the School of Nursing.
Graduation Requirements
You must meet Purdue Global's general requirements (https://catalog.purdueglobal.edu/graduate/policy-information). Additionally, the Doctor of Nursing Practice (DNP) requires a minimum of 1,000 postbaccalaureate supervised practice hours. The DNP faculty will review prior coursework to determine the appropriate number of hours to complete at the DNP level.

You will be required to complete a minimum of 48 quarter credits in the DNP program, which includes over 500 supervised practice hours. Degree plans are outlined with up to 60 quarter credit hours required at the 700-800 level, which accounts for 12 quarter credit hours of DNP practice experience that you may be required to complete in order to satisfy the 1,000-hour postbaccalaureate minimum. Part or all of the independent study requirements for practice hours can be waived from your degree, at the discretion of your Academic Department Chair or Dean, depending on the number of practice hours you are required to complete. Waivers will be submitted through your Student Advisor.

Certification, State Board, and National Board Exams
Certain state certification and licensure boards have specific educational requirements for programs to lead to a license or nongovernmental certification that is a precondition for employment in a recognized occupation.

Unless otherwise specified, Purdue Global’s programs are not designed to meet any specific state’s licensure or certification requirements. If certain licensed occupations, vocations, or professions are not explicitly listed, Purdue Global has not made a determination with respect to the licensure or certification requirements of those occupations, vocations, or professions. Licensure-track programs may limit enrollment to students in certain states; please see Purdue Global’s Program Availability Information (https://www.purdueglobal.edu/catalog-program-availability-info.pdf) to determine enrollment eligibility.

You are responsible for understanding the requirements of optional certification exams. Such requirements may change during the course of your program. You are not automatically certified in any way upon program completion. Although certain programs are designed to prepare you to take various optional certification exams, Purdue Global cannot guarantee you will be eligible to take these exams or become certified. Your eligibility may depend on your work experience, completion of education and/or degree requirements, not having a criminal record, meeting other certification requirements, or the program or the University itself having appropriate accreditation or licensure.

The Doctor of Nursing Practice was not designed for initial certification and licensure for advanced practice registered nurse roles. If you intend to pursue certification as an advanced practice registered nurse, you must verify the requirements for certification and licensing with your state board of nursing.

Upon completion of the program, you may be prepared to sit for the Nurse Executive or the Nurse Executive, Advanced certification examinations (depending on the level of leadership with your organization) provided by the American Nurses Credentialing Center, or may be eligible for the American Organization of Nurse Executives Certified in Executive Nursing Practice certification.
