MASTER OF SCIENCE IN NURSING AND MASTER OF HEALTH CARE ADMINISTRATION DUAL DEGREE OPTION

The 🌐 icon appears in the title of traditional courses that are also available as a set of module courses.

Description and Outcomes

The Master of Science in Nursing and Master of Health Care Administration Dual Degree Option is designed to build on previous nursing education and clinical experiences to prepare you to pursue advanced practice in a variety of settings. This degree combines the traditional Master of Science in Nursing with a Master of Health Care Administration, preparing nurses for hospital administration and health care industry executive leadership roles. The overall purpose of the Master of Science in Nursing and Master of Health Care Administration Dual Degree Option is to provide graduate education for advanced nursing roles that respond to the needs of health care organizations.

The Master of Health Care Administration program prepares you for leadership and management career opportunities within the health care industry. The program's curriculum is designed to satisfy your intellectual curiosity by building on your current knowledge and skills. You will study overall concepts, values, research methods, and applications relevant to health care administration within local, state, or federal government and in private industry.

The Master of Science in Nursing with an executive leader concentration is designed to prepare you to pursue managerial positions and leadership roles in hospitals, community health, long-term care facilities, and other health care systems.

Concentration

You will complete the executive leader concentration, which includes a clinical experience.

Program Length

The Master of Science in Nursing and Master of Health Care Administration Dual Degree Option consists of a minimum of 74 quarter credits. Upon successful completion of the program, you will be awarded the Master of Science in Nursing and Master of Health Care Administration degrees.

Program Outcomes

Master of Science In Nursing Program Outcomes

1. Synthesize theory and research-based knowledge that reflects the distinct and shared perspectives of nursing and other disciplines to form a foundation for clinical judgment and nursing practice.
2. Develop holistic, culturally competent, and compassionate person-centered care through the planning and management of evidence-based practice for individuals, families, and populations.

3. Design partnerships that create equitable health policy and determine the socioeconomic impact of population health management.
4. Integrate evidence from current and relevant scholarly research that contributes to optimal, ethical, and equitable care delivery.
5. Create a culture of safety that incorporates evidence-based practice principles in quality care delivery for patients by the health care team while in the clinical setting.
6. Apply principles of effective team leadership to foster interprofessional collaboration and communication that reflect shared values among health care partners.
7. Differentiate levels of clinical judgment within complex health care systems to coordinate cost-effective resources to provide safe, quality, and equitable care to diverse populations.
8. Analyze information and communication technologies to deliver effective care and improve outcomes for patients, communities, and populations in accordance with ethical, legal, professional, and regulatory standards.
9. Show professionalism through the delivery of diverse, equitable, and inclusive nursing care while maintaining accountability to all legal, societal, and professional norms that are reflected within the professional codes of nursing.
10. Formulate leadership practices that promote a commitment to fostering personal well-being, resiliency, flexibility, and professional maturity while supporting the nursing profession.

Health Care Administration Outcomes:

1. Communication, Interpersonal Effectiveness, and Teamwork: Demonstrate effective health care leadership through proficient communication, interpersonal, and teamwork skills.
2. Critical Thinking, Analysis, and Problem-Solving: Design solutions through proficient critical thinking, analytical, and problem-solving skills.
3. Health Care System(s) and Environment: Assess the impact of health care system(s) and environment on organizational goals.
4. Leadership, Management, and Organization: Apply leadership, management, and organizational principles and practices to further organizational goals.
5. Personal Development and Professionalism: Design goals by applying personal and professional development principles and practices.

Professional Competencies

In addition to the discipline-specific outcomes, professional competencies are integrated throughout your academic program. You can review the professional competencies associated with your academic program in the Professional Competencies (https://catalog.purdueglobal.edu/graduate/professional-competencies/) section of this Catalog.

Program Availability

For program availability, please refer to the U.S. State and Other Approvals (https://catalog.purdueglobal.edu/policy-information/university-information/accreditation-approvals-memberships/) section and Program Availability Information (https://www.purdueglobal.edu/catalog-program-availability-info.pdf).

Policies

Admissions Requirements

You must meet the following admissions requirements in addition to Purdue Global's general requirements (https://catalog.purdueglobal.edu/policy-information/admissions/) and the general requirements of the School of Nursing (https://catalog.purdueglobal.edu/graduate/nursing/).

If applying for admission, you must submit the following:

1. A transcript indicating receipt of a bachelor's degree with an upper-level major in nursing and a cumulative GPA of 2.5 or higher from an accredited institution. Refer to the Admissions Requirements (https://catalog.purdueglobal.edu/policy-information/admissions/) for more information on prior degree submission. If you have not completed a statistics course and a nursing research course with a grade of "C" or better as part of your bachelor's degree in nursing, you must complete them before enrollment in NU504 🌐 Scientific and Analytic Approaches to Advanced Evidence-Based Practice. If you choose to take the required statistics course at the University, you will have all course-level prerequisites waived.
2. An approved criminal background check (https://catalog.purdueglobal.edu/policy-information/admissions/).
3. A current, professional resume that details employment history including responsibilities and dates of employment.

Progression Requirements

1. You may not use credit for prior learning to fulfill any courses in the executive leader concentration, unless you have approval from the Dean of the School of Nursing.
2. This program requires you to complete traditional and module courses. See Course Types (https://catalog.purdueglobal.edu/policy-information/university-information/approach-to-learning/) for more information.

Clinical Experiences

As part of the requirements for the executive leader concentration, you will complete a clinical experience designed to provide the opportunity for application of theoretical knowledge while working with a mentor.

Refer to the School of Nursing's Progression Requirements (https://catalog.purdueglobal.edu/graduate/nursing/) section for additional requirements for clinical experiences.

Certification, State Board, and National Board Exams

Certification and licensure boards have state-specific educational requirements for programs that lead to a license or certification that is a precondition for employment. Prospective and current students must review Purdue Global's State Licensure and Certifications (https://www.purdueglobal.edu/about/accreditation/licensure-state-authorizations/) site to view program and state-specific licensure information.

Licensure-track programs may limit enrollment to students in certain states; please see Purdue Global's Program Availability Information (https://www.purdueglobal.edu/catalog-program-availability-info.pdf) to determine enrollment eligibility.

You are responsible for understanding the requirements of optional certification exams. Such requirements may change during the course of your program. You are not automatically certified in any way upon program completion. Although certain programs are designed to prepare you to take various optional certification exams, Purdue Global cannot guarantee you will be eligible to take these exams or become certified. Your eligibility may depend on your work experience, completion of education and/or degree requirements, not having a criminal record, and meeting other certification requirements.

Degree Plan

The 🌐 *icon appears in the title of traditional courses that are also available as a set of module courses. Module course availability may be limited to certain academic calendars. See* Course Types *(https://catalog.purdueglobal.edu/policy-information/university-information/approach-to-learning/) for information about module courses.*
