MASTER OF SCIENCE IN EDUCATIONAL PSYCHOLOGY

Description and Outcomes

The Master of Science in Educational Psychology program is designed to prepare you to pursue professions in educational, instructional, and governmental institutions. You will focus on developing the knowledge and skills to guide improvement of educational programs and practices.

Many educational, instructional, and governmental institutions are becoming increasingly dependent on educational psychologists who are equipped with the knowledge and expertise to develop, implement, and evaluate instructional programs. In order to keep programs competitive, maintain educational quality, and improve learning, these organizations may also seek professionals trained in new and improved instructional techniques, technologies, educational trends, and learning behaviors.

The Master of Science in Educational Psychology is not focused on the clinical practice of school psychologists and does not lead to licensure or certification. The goal of the program is to help you develop competencies to evaluate and recommend improvements in educational programs, student learning, and instruction. If you are interested in pursuing a career as a psychometrician, program evaluator, or school consultant, this degree could be an asset.

Program Length

The Master of Science in Educational Psychology program consists of a minimum of 47 quarter credit hours. Upon successful completion of the program, you will be awarded a master of science degree.

Program Outcomes

1. Select research design and methodologies that effectively address needs, processes, and outcomes in program evaluation.
2. Apply knowledge and skills to the creation of educational and psychological interventions that promote academic performance and social-emotional behavior.
3. Integrate reasonable adaptations to educational policies, practices, and accommodations to create equivalent learning environments and experiences for diverse populations.
4. Design effective educational programs and interventions by integrating learning theory and psychological principles.
5. Demonstrate basic knowledge of the interaction between educational technology and academic outcomes.

Professional Competencies

In addition to the discipline-specific outcomes, professional competencies are integrated throughout your academic program. You can review the professional competencies associated with your academic program in the Professional Competencies (https://catalog.purdueglobal.edu/graduate/professional-competencies/) section of this Catalog.

Program Availability

For program availability, please refer to the U.S. State and Other Approvals (https://catalog.purdueglobal.edu/policy-information/university-information/accreditation-approvals-memberships/) section and Program Availability Information (https://www.purdueglobal.edu/catalog-program-availability-info.pdf).

Policies

Please refer to school-specific policies (https://catalog.purdueglobal.edu/graduate/social-behavioral-sciences/) and the Policy Information (https://catalog.purdueglobal.edu/graduate/policy-information/) section for general Purdue Global policies.

Certification, State Board, and National Board Exams

Certain state certification and licensure boards have specific educational requirements for programs to lead to a license or nongovernmental certification that is a precondition for employment in a recognized occupation.

Unless otherwise specified, Purdue Global's programs are not designed to meet any specific state's licensure or certification requirements. If certain licensed occupations, vocations, or professions are not explicitly listed, Purdue Global has not reviewed the licensure or certification requirements of those occupations, vocations, or professions, nor intended the program to meet such requirements. Licensure-track programs may limit enrollment to students in certain states; please see Purdue Global's Program Availability Information (https://www.purdueglobal.edu/catalog-program-availability-info.pdf) to determine enrollment eligibility.

You are responsible for understanding the requirements of optional certification exams. Such requirements may change during the course of your program. You are not automatically certified in any way upon program completion. Although certain programs are designed to prepare you to take various optional certification exams, Purdue Global cannot guarantee you will be eligible to take these exams or become certified.

The Master of Science in Educational Psychology is not focused on the clinical practice of school psychologists and does not lead to licensure or certification in any state.

Degree Plan

The icon appears in the title of traditional courses that are also available as a set of module courses. Module course availability may be limited to certain academic calendars. See Course Types (https://catalog.purdueglobal.edu/policy-information/university-information/approach-to-learning/) for information about module courses.
