GRADUATE CERTIFICATE IN INSTRUCTIONAL DESIGN AND TECHNOLOGY

Description and Outcomes

The Graduate Certificate in Instructional Design and Technology focuses on developing your skills in the design, development, and evaluation of instructional programs, materials, and media in corporate, nonprofit, military, and higher education environments. Courses focus on current practices in the field of instructional design and technology, instructional design process models, eLearning authoring tools and methods, and online instructional materials using digital media. This certificate may prepare you to pursue a career as an instructional designer, instructional technology specialist, learning and development specialist, or curriculum coordinator.

Program Length

The Graduate Certificate in Instructional Design and Technology program consists of 20 quarter credit hours. Upon successful completion of the program, you will be awarded a certificate.

Program Outcomes

1. Design, develop, and implement instructional materials and solutions that both integrate learning technology and align with learning outcomes.
2. Analyze learner demographics, characteristics, and learning contexts to develop appropriate, workable instructional solutions.
3. Analyze trends and issues in instructional technology.
4. Apply current research and theory to the practice of instructional design and learning technology integration.
5. Apply ethical and legal practices to the production of video and digital media.

Program Availability

For program availability, please refer to the U.S. State and Other Approvals (https://catalog.purdueglobal.edu/policy-information/university-information/accreditation-approvals-memberships/) section and Program Availability Information (https://www.purdueglobal.edu/catalog-program-availability-info.pdf).

Policies

Progression Requirements

If you are enrolled in a College of Social and Behavioral Sciences certificate program, you will have all course-level prerequisites waived.

Certification, State Board, and National Board Exams

Certification and licensure boards have state-specific educational requirements for programs that lead to a license or certification that is a precondition for employment. Prospective and current students must review Purdue Global's State Licensure and Certifications (https://www.purdueglobal.edu/about/accreditation/licensure-state-authorizations/) site to view program and state-specific licensure information.

Licensure-track programs may limit enrollment to students in certain states; please see Purdue Global's Program Availability Information (https://www.purdueglobal.edu/catalog-program-availability-info.pdf) to determine enrollment eligibility.

You are responsible for understanding the requirements of optional certification exams. Such requirements may change during the course of your program. You are not automatically certified in any way upon program completion. Although certain programs are designed to prepare you to take various optional certification exams, Purdue Global cannot guarantee you will be eligible to take these exams or become certified. Your eligibility may depend on your work experience, completion of education and/or degree requirements, not having a criminal record, and meeting other certification requirements.

Degree Plan

The 🌐 *icon appears in the title of traditional courses that are also available as a set of module courses. Module course availability may be limited to certain academic calendars. See* Course Types *(https://catalog.purdueglobal.edu/policy-information/university-information/approach-to-learning/) for information about module courses.*

Program Requirements

Code	Title	Credits
Core Requirements		
IX500	Foundations of Instructional Technology	5
IX510	Instructional Design	5
IX536	Design and Development Tools	5
IX542	Multimedia Design and Development	5
Total Core Requirements		20
TOTAL CREDITS		**20**
