Eligible degree programs include:

- Bachelor of Science in Analytics
- Bachelor of Science in Cloud Computing and Solutions
- Bachelor of Science in Cybersecurity
- Bachelor of Science in Information Technology

To qualify for the graduate course waivers, you must meet the following criteria:

- Complete your bachelor’s degree with a minimum cumulative GPA of 3.2.
- Obtain a grade of "B" or above in each undergraduate course required for graduate course waiver (defined below).
Bachelor of Science in Cloud Computing and Solutions

This program equips you to master the foundational goals of cloud computing. You will apply current technical tools and methodologies to create cloud solutions. Upon completion, you will be able to evaluate cloud computing trends, recognize best practices, and analyze and evaluate cloud providers and cloud solutions. The courses in this program enable you to pursue many critical cloud certifications. Whether your immediate educational goals are satisfied by the completion of a bachelor’s degree or you are planning to pursue study in the information technology field beyond the baccalaureate level, this degree program may be for you.
