

# BACHELOR OF SCIENCE IN HEALTH CARE ADMINISTRATION

## Description and Outcomes

The Bachelor of Science in Health Care Administration program is designed to address the growing need for well-prepared, entry-level health care administrators. The objective of the program is to provide you with the foundation to work within the health care industry as well as prepare you to pursue entry-level supervisory roles in health care organizations.

The curriculum is designed to help you gain a strong foundation in the core disciplines of health care administration, including content knowledge and skills in the areas of administration and management, and understand important concepts and processes. Coursework teaches foundational knowledge and skills as well as overall concepts, values, research methods, and applications that could prepare you to pursue a leadership career in health administration in the public sector or private industry. The program is taught by faculty with real-world knowledge and experience and helps you develop expertise in core health areas.

If you are interested in pursuing entry-level management positions in health care administration, you may be an ideal candidate for the Bachelor of Science in Health Care Administration program. Upon graduation, you could pursue administrative positions within the health care industry in organizations such as: insurance companies, hospitals, long-term care facilities, public health agencies, outpatient facilities, physician offices, mental health organizations, and other types of health organizations. The Bachelor of Science in Health Care Administration program could also provide an educational foundation if you plan on pursuing a master's degree in order to apply for executive health care positions.

This program is available in ExcelTrack. Speak with your University representative for any limitations. For more information on ExcelTrack, see Learning Paths in the Approach to Learning (<https://catalog.purdueglobal.edu/policy-information/university-information/approach-to-learning/>) section of the Catalog.

## Graduate Program Pathways

If you are interested in earning both a bachelor's and master's degree, consider a graduate program pathway (<https://catalog.purdueglobal.edu/undergraduate/graduate-program-pathways/>).

## Program Length

The Bachelor of Science in Health Care Administration degree program consists of a minimum of 180 quarter credit hours. Upon successful completion of the program, you will be awarded a bachelor of science degree.

## Program Outcomes

### Discipline-Specific Outcomes

1. Knowledge Base: Demonstrate a sound foundational knowledge and understanding of principles and practice in health care regarding administration, management, law, economics, and policy.
2. Research Methods and Critical Thinking Skills: Demonstrate competency in industry-specific knowledge and skills related to

research methods, critical thinking, and problem solving in health care settings.

3. Interdisciplinary Integration: Apply principles of management needed to work in teams, build cross-functional teams, and facilitate collaborative decision making.
4. Operations: Apply best practices in decision making within the functional areas of health care management.
5. Health Care Administration: Demonstrate an understanding of the forces impacting health delivery systems and the effective and efficient management of health care.
6. Ethics and Professionalism: Analyze the professional, ethical, and legal standards of health care administrative practice.

## General Education Literacies and Professional Competencies

In addition to the discipline-specific outcomes, general education literacies and professional competencies are integrated throughout your academic program. You can review the general education literacies and professional competencies associated with your academic program in the General Education and Professional Competency Requirements (<https://catalog.purdueglobal.edu/undergraduate/general-education-professional-competency-requirements/>) section of this Catalog.

## Program Availability

For program availability, please refer to the U.S. State and Other Approvals (<https://catalog.purdueglobal.edu/policy-information/university-information/accreditation-approvals-memberships/>) section and Program Availability Information (<https://www.purdueglobal.edu/catalog-program-availability-info.pdf>).

## Policies

Please refer to school-specific policies (<https://catalog.purdueglobal.edu/undergraduate/health-sciences/>) and the Policy Information (<https://catalog.purdueglobal.edu/policy-information/>) section for general Purdue Global policies.

## Certification, State Board, and National Board Exams

Certification and licensure boards have state-specific educational requirements for programs that lead to a license or certification that is a precondition for employment. Prospective and current students must review Purdue Global's State Licensure and Certifications (<https://www.purdueglobal.edu/about/accreditation/licensure-state-authorizations/>) site to view program and state-specific licensure information.

Licensure-track programs may limit enrollment to students in certain states; please see Purdue Global's Program Availability Information (<https://www.purdueglobal.edu/catalog-program-availability-info.pdf>) to determine enrollment eligibility.

You are responsible for understanding the requirements of optional certification exams. Such requirements may change during the course of your program. You are not automatically certified in any way upon program completion. Although certain programs are designed to prepare you to take various optional certification exams, Purdue Global cannot guarantee you will be eligible to take these exams or become certified. Your eligibility may depend on your work experience, completion of education and/or degree requirements, not having a criminal record, and meeting other certification requirements.

## Degree Plan

The  icon appears in the title of traditional courses that are also available as a set of module courses. Module course availability may be limited to certain academic calendars. See Course Types (<https://catalog.purdueglobal.edu/policy-information/university-information/approach-to-learning/>) for information about module courses.
