

BACHELOR OF SCIENCE IN CRIMINAL JUSTICE

Description and Outcomes

The Bachelor of Science in Criminal Justice program is designed to offer a level of academic study that provides you with a solid foundation in criminal justice and a broad liberal arts knowledge base. The baccalaureate program combines the professional skills of various specialized areas of criminal justice with research and analytical skills.

If you seek a practice-based program, the Bachelor of Science in Criminal Justice is designed to enhance your qualifications to help you pursue more challenging responsibilities in criminal justice agencies and corporations. Upon graduation, you may seek employment opportunities in various criminal justice environments such as law enforcement, courts, adult and juvenile corrections, corporate security, public safety, loss prevention, private protective services or investigations, or community-based programs and services. It should be noted that some positions may require additional academy training and experience.

If you have already completed an associate's or bachelor's degree from an accredited institution, you may be eligible for degree requirements to be waived and replaced with advanced start credit. Refer to Advanced Start Credit in Bachelor's Degrees (<https://catalog.purdueglobal.edu/policy-information/prior-learning/advanced-start-credit-bachelors-degrees/>) for details.

Unless otherwise specified, Purdue Global's programs are not designed to meet any specific state's licensure or certification requirements. If certain licensed occupations, vocations, or professions are not explicitly listed, Purdue Global has not reviewed the licensure or certification requirements of those occupations, vocations, or professions, nor intended the program to meet such requirements.
